### Superintendent's Highlights

Teachers worked to match the new k-12 standards to their existing curriculum and objectives in math, reading and language arts. Elementary teachers attended training in the use of CCC software. It allows the teachers to help students work at their own pace. The middle school teachers have been focusing on computation and attending workshops. They have been using a mobile computer lab to integrate technology into our lessons and projects. At the high school level, we have been focusing on improving instruction in the Block schedule into our present curriculum. A Major emphasis has been placed on math and English to give ALL our students a very strong foundation in those areas.
